

ASCOM VALUED CUSTOMER UNITE MIGRATION OFFER

At Ascom we're grateful for all our Unite solution customers. To say thanks, we're offering the ability to upgrade your existing alarm, messaging and management platform to our new Unite Connectivity Manager (UniteCM). Providing increased performance, higher throughput and many additional new features, UniteCM is essential to future compatibility and expansion of your system. Since UniteCM replaces existing IMS, IMS2 or UPAC, for a limited time Ascom is offering a Manufacturer's trade-in discount on your current hardware.

Ask your Ascom solution specialist about the new features and clinical integrations of UniteCM.

WHAT'S IN IT FOR MY COMPANY?

- » Get the latest software updates
- » FREE Ascom system analysis
- » Ensure future compatibility and growth
- » Get the new features of UniteCM at a discount

IMS, IMS2
& UPAC
