

Technical Service Bulletin

Product: CR24 Power Supply
Purpose: Instructions for connecting power cable to module
Date: 06/07/2006

CR24 Power Cable Installation

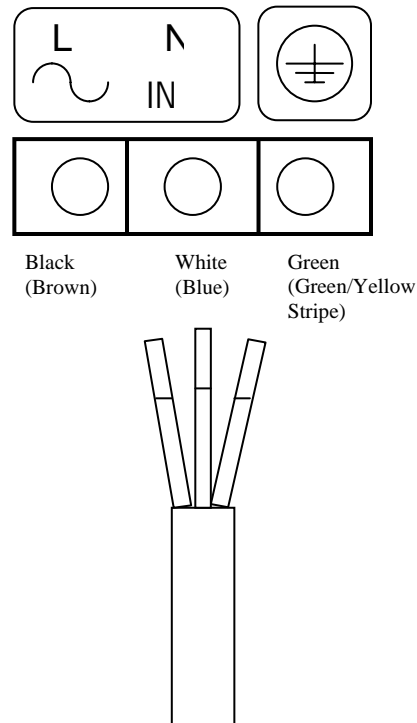

General

The CR24 power supply kit is used to supply power to the CR24 rack charger. The kit consists of the power module and a power cable. The power cable is not attached and must be done manually if the cable is to be used.

Solution

The following diagram illustrates the correct terminal connections for the power cable.

Commercial Coding for AC Wiring			
Service	US	Europe	UK
115v/240v 60Hz	Black	Brown	Brown
Common	White	Blue	Blue
Ground	Green	Green/Yellow	Green/Yellow
