## License Requirements for Ascom<sup>®</sup> Mobility Server Implementation

The sales and ordering process for an Ascom Mobility Server requires that a Software License Agreement (SLA) be submitted with the purchase order. The SLA must be signed by the customer and is required for Ascom to accept the Purchase Order and ship the Mobility Server. The SLA outlines the Terms and Conditions pertaining to the end users' use of the Ascom Mobility Server product.

It is recommended that a copy of the SLA be provided to the customer early in the sales process to eliminate any last minute confusion or delays. A copy of the SLA is both included in your PDSM manual version 2 and found on the Ascom PD site at:  
<http://www.ascomwireless.com/pd/mobservpig.htm#LIC>

If you need additional information, please contact your assigned Channel Manager.
